

Quote:- Natural Habitat

27 July, 2004

TO WHOM IT MAY CONCERN

I have know Nicolle Foster for the better part of two decades.

Over this time I have developed a deep and abiding respect for Nicolle on both a personal and a professional basis.

When Nicolle started Natural Habitat Interiors and Design I was delighted to discover a fellow designer whose attitudes and skills were so able to complement my own.

Indeed, since Natural Habitat has been operating, the business has had all my interior design work and the vast majority of all the colour schemes I have needed.

To have an efficient and effective service of this quality available, where the chief designer is so sympathetic to my needs has enhanced my own company's operations considerably.

The size or magnitude of any job makes no difference. The results are always excellent and the reports back from my clients are universally positive.

Nicolle's latest move into her lovely new design studio in the wonderful Coffs Jetty area can only enhance her operation.

I have no hesitation in recommending Nicolle and her company Natural Habitat Interiors and Design to any who may seek her services.

Should the reader wish further information, please feel free to call me.

Yours faithfully

Ann M Gee
